

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

May 12, 2004

H.R. 2663

A bill to authorize the Secretary of the Interior to study the suitability and feasibility of designating Castle Nugent Farms located on St. Croix, Virgin Islands, as a unit of the National Park System

As ordered reported by the House Committee on Resources on May 5, 2004

H.R. 2663 would direct the Department of the Interior to study the feasibility and suitability of designating the approximately 1,400-acre site of Castle Nugent Farms on St. Croix as a unit of the National Park System. The department would be required to report its findings and recommendations within three years of receiving funds for the study.

Assuming the availability of appropriated funds, CBO estimates that implementing H.R. 2663 would cost the federal government about \$300,000 over the next three years to complete the required study and report. Enacting the legislation would not affect direct spending or revenues.

H.R. 2663 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. The estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
